

Services & Strategies Committee Outreach

The Services & Strategies Committee is an advisory committee to the San Luis Obispo County Workforce Development Board. The Committee is comprised of community partners who are interested in strengthening collaboration among service providers in SLO County that assist individuals with finding meaningful employment. The Committee held its first meeting in December 2016 and is in the beginning phases of establishing its mission and goals. Meetings are currently taking place monthly with the anticipation of moving to regular quarterly meetings after initial planning is complete. All meetings are open to the public. Please consider attending our meetings to learn more about employment services in SLO County and the work of this new Committee.

For current updates and information visit us at SLOworkforce.com or on [Facebook](#).
